

To know how to use a number line

1 On the number line:

a Circle the number 8.

b Underline a number greater than 8.

c Draw an arrow to the number one less than 3.

d Put a box around the smallest number.

2 a A frog starts on 0.

How many jumps does it make to get to 8?

b It makes one more jump forward, which number is he on now?

3 Partner game.

You will need:

- A dice
- A counter each
- A number line

Roll the dice and cover the number using a counter.

How many jumps away from 0 is your number?

How many jumps from 10 is your number?

Are you closer to 0 or 10?

To know how to use a number line
